VALUABLE
Timber Lands
And Mill Property
FOR SALE.

THE subscriber, desirous of disposing of all his interest in Timber Lands and mills, will sell on favorable terms the following:

One-Half Township No. 5, Range 4, Oxford County.

The whole township contains twenty-six thousand (26,000) acres, is heavily timbered with spruce, estimated at sixty to eighty millions, all of which stands within near and easy hauling distance of the Magalloway river or its branches, which runs through the town, or Parmachena Lake, which is embraced within its limits.

Also 10,000 Acres of Land in the Town of Byron, Oxford Co.,

well covered with large Spruce timber. Swift river and its branches run through these lands and empty into the Androscoggin below Rumford Falls.

Also 1100 Acres Timber and Wood Land in Town of Gorham, N. H.

two miles above the Alpine House, on the line of the Grand Trunk Railroad, and the banks of the Androscoggin river. There is a large quantity of wood on these lots which, from its proximity to the Railroad, is steadily increasing in value.

Also 2500 Acres Lands in the Towns of Albany and Stoneham,

near the village of North Waterford, Oxford County. This land is covered with thrifty sapling Pine timber, standing near Crooked river, which runs through the tract. Logs put into Crooked river can be run to Saccarappa, or by hauling four to five miles they can be put into the Saco. There is a good mill privilege, with a single saw mill on the tract; distance to the canal at Harrison two miles; to the railroad at South Paris twelve miles. The land is valuable for settling purposes after being cleared of timber.

Also 435 Shares of Stock in the Lewiston Steam Mill Company,

the whole capital stock being represented by 627 shares. The property of the company consists of a Steam Saw Mill, capable of manufacturing five million feet of long lumber, with a proportionate amount of clapboards, shingles and laths. About fifteen acres land in the city of Lewiston, well located for building purposes, and thirty thousand acres of timber land, well located on the Androscoggin river and its branches, from which but a small quantity of the timber has been cut.

wrongs, the logical results of granting immunity to the destroyer of human life are apt to be lost sight of; and the acquittal of a murderer whose provocation has been of that peculiar nature which appeals so strongly to the sympathies of a community, where the marital obligations are held in special reverence, is likely to kindle an enthusiasm over the apparent vindication of social morality, which fails to appreciate its actual bearing upon the maintenance of order and the prevention of crime. The plea of insanity has become the standard defence of every criminal whose guilt is beyond dispute, and its successful interposition has already, in numberless instances, parried the penalties of the law, while in a majority of these cases, the madman, after being pronounced irresponsible for his outrages, has been again turned loose upon a public thus deprived by law of all power to defend themselves.

The recent acquittal of McFarland is a case in point, and illustrates the fact that the consequences of such verdicts may not cease with the liberation of the prisoner. At a meeting of the Medico-Legal Society in New York, on Thursday last, Dr. Hammond, one of the experts examined on the trial, expressed the opinion:

"That McFarland is at present in such a physical and mental condition as to render him liable, upon comparatively slight cause, to another explosion of mania, is a fact in regard to which repeated examination leaves no doubt upon my mind."

That "another explosion of mania" is simply a professional euphemism for another shooting is quite apparent. Yet, this man has been acquitted of one murder, on the very plea of that insanity which the same persons declare is likely to explode in a similar frenzy; and the law which could only exonerate him in the first case, is equally powerless to punish him for a second assassination. The law has liberated a maniac, and sent him forth with legal authority to kill whenever the thirst for human blood shall again possess him.

If neither the prison nor the asylum is to afford protection from these homicidal bedlamites, the press may well inquire, "Who is the defender of human life?"

THE FRENCH VOTE. The Tribune Special says the large affirmative vote of Paris on the Plebiscitum was unexpected, while the large number voting "No" in the army and navy alarmed the Emperor. The affirmative majority as far as it was not fraudulent, means Empire pure and simple. Liberal or despotic as Napoleon chooses.

A large fraction voted "Yes" under the lead of moderate liberals who fear plots and Revolutions. Two millions of the seven must be credited to the army and civil officers, and four millions were made up by fraud and coercion by the votes of the bourgeois and peasantry. During the campaign the government has silenced the opposition press all over France. Rochefort's district following his counsel to abstain, gives "Yes" 5000 "No" 16,000, while the absentees were 20,000. The whole vote was "Yes" 7,257,379; "No" 1,530,900; abstentions 1,200,000; blank 150,000; not reported 70,000. The report that two entire regiments at Vincennes, refused to vote is confirmed, and the defection in the Paris garrison was so great that Gen. Lebœuf wanted to march several Regiments out of the city, but the Emperor objected as it would betray fear. Its vote was managed with the greatest care; no soldier was allowed to attend a political meeting; the whole army voted in the barracks, the Colonels presiding; and every man's vote known as an opposition vote had a black mark put against his name, which stops promotion, and is surely followed by punishment. Nevertheless out of fewer than 300,000 votes there are 40,000 noes. The navy gives 5000 noes and 23,000 yeas. Some Regiments give an actual majority of noes. The Ministry will be reorganized. Rouher's return to Power is only a question of time. The story of a plot added a million to the Emperor's majority. The current of feeling had set strongly against the Government, and the necessity of a desperate expedient more than explains the sudden appearance of the new plot.

The Grand Army of the Republic on Thursday last re-elected Gov. John A. Logan Commander-in-Chief for the ensuing year. Gov. Lucius Fairchild, of Wisconsin, was elected Senior Vice Commander; Gen. Lewis Wagner, of Pennsylvania, Junior Vice Commander; Dr. Samuel A. Green, of Massachusetts, Surgeon General, with a member of the Council of Administration from each State. Major Poore of Massachusetts, chairman of the Committee on Resolutions, reported a series of resolutions, which were adopted. They deplore the death of Gen. Thomas; recommend the observance of Decoration Day; condemn the opinion of Attorney General Hoar requiring the General Government to ask from the Southern States sovereignty over national cemeteries; recommend the establishment of State Homes for soldiers' orphans and an asylum at the South for colored veterans; suggest the donation of land to volunteers; and thank the Washington comrades for their hospitalities. The Encampment has revised the rules and regulations, making several changes.

A horrible outrage was perpetrated by seven ruffians in Ladore, Kansas, on Tuesday last. After drinking all day, they went to the house of Mr. J. N. Roach, and being refused admission on account of their drunkenness, they knocked him insensible with a revolver, and entering the house perpetrated the most diabolical outrages upon his two daughters, aged 12 and 14, throughout the night, during which a quarrel arose and one of the fiends was killed. At daybreak they left, one of them taking with him the youngest girl. The town was immediately roused, parties starting in every direction, and the child was speedily recaptured and the monster hung to a tree. Two others, found secreted in the town, were hung to the same tree. The remainder were subsequently captured and met the same deserved fate.

The Tribune says the statement that Mr. Junius Henri Browne was paid $1,000 for Mrs. Richardson's statement, "is without one solitary particle of foundation in fact; and, of course those who promulgate the fiction know it. Mrs. Richardson is the unaided author of her own statement, and the insinuation to the contrary is as despicable as it is malignantly false."

green by irrigation.

But now the rains have come, and the whole country has put on a new dress. The foothills and valleys are clothed in the beautiful, rich green of the Alfilerea. The Almond, the Peach and other fruit trees are in full bloom, and the air is laden with the perfume of the Orange blossoms. The scenery is charming; fine rolling hills to the west of town; the foothills and craggy heights of the Santa Inez range on the northeast; the islands across the channel, the breakers rolling in from the blue waters of the Pacific with the valley lands of the Patera stretched along at the base of the range and bordering the sea. The atmosphere, clear and soft, reminding one of those delicious June days at home, furnishes a perfect medium for the display of the varied and attractive scenery. We have most gorgeous sunsets, and the sun after its departure, sends back a glow that tinges the mountain ranges with the richest hue, shading from a bright purple to the most delicate pink. Just before a rain, a thin fog drifts in from the Pacific and settling down on the mountain tops gives them the appearance of snow capped peaks in the distance, which tinged by the setting sun, contrast most beautifully with the rich sunset hues lower down on the mountains and foothills.

The valley rises gradually from the beach till it reaches an elevation of 150 ft. at a distance of about two miles from the water, where stands the old Mission, built more than eighty years ago by the native California Indian. It is built of sandstone and [illegible], burned lime, and still in a good state of preservation, is occupied as a Franciscan College for boys. This is one of the most picturesque of these structures on this coast. On each corner of the front is a tower thirty-five feet high, surmounted by double belfries, above each of which is the symbolic cross. The bells are very musical, and pealing forth at every hour of the day may be heard for miles up and down the coast. Every devout Catholic then crosses himself and mumbles a prayer. On the roof between the towers are two statues of life size, supposed to represent some of the good old patron saints. In front of this massive facade the ruins of a large fountain still remain; and signs of the walks and parterres the Fathers delighted to cultivate. The interior is richly decorated with oil paintings. A few represent the Virgin Mary and the saints, but they are mostly pictures of His Satanic Majesty, and ghastly views of Purgatory. One cannot wonder after examining these horrible pictures, that the poor natives are in such a state of subjection. Back of the Mission is a large reservoir of water which is conducted in trenches from the mountain to supply the fountains, and to irrigate the lands belonging to the Mission.

Standing on such high ground, the Mission can be seen for miles around, and its pure white walls and towers, with the surrounding mountains and valleys, and the [illegible] adobe huts of town form a very picturesque scene.

About three miles from town, out on one of the beautiful foothills overlooking the ocean and the surrounding country, is the big grape vine so well known throughout California as the largest in the State, and probably the largest on the American continent. The slip from which it grew, was brought to Santa Barbara, forty-five years ago by an old Spanish woman, who, coming on horseback from Los Angeles cut it for a riding whip. The vine measures fourteen inches in diameter at four feet from the ground; at two feet higher it begins to branch off, and supported by a rude trellis forms a beautiful arbor covering 10,000 sq. ft. of ground. It produces about 12,000 pounds of grapes annually. The bunches are from fourteen to eighteen inches long and weigh from six to seven pounds each.

There is a smaller vine near by about ten years old, that produces annually from 900 to 1,200 bunches. No fertilizer is used about these vines, excepting that the cuttings are burned, and their ashes placed in the soil over the roots. Irrigation is employed very sparingly and only at the time when the ashes are used.

Leaving the grapevine and taking a ride of two miles up the mountain, we reach the hot sulphur springs, which are a great place of resort for invalids, on account of their healing properties. The water is of a yellowish green color and its greatest heat is 118 Fahrenheit.

Among the other curiosities of this place is a large evergreen tree, which is said to be the only one of its species in North America. It belongs to an old Spanish woman who jealously guards it, and will allow no one to take even a cutting from it. It is supposed to be a breadfruit tree, similar to those of South America, but its fruit never comes to perfection.

The society is much better than I expected to find. I know of no other place with the same number of inhabitants, that can boast of so many highly intelligent, and refined persons, and I account for this, from the fact that it is principally settled by Eastern people. We have very good public schools, besides a boarding school lately established. The Sisters of Mercy also have a large school composed wholly of Catholics.

Although I miss many of the old associations and privileges of Bangor, I have never regretted that I came to California.

Wm. Orton, President of the Western Union Telegraph Company, addressed the Postal Telegraph Committee for two hours, on Thursday, in reply to Mr. Washburne's recent speech. He submitted evidence to prove that the percentage of increase in the miles of wire in Europe required to transmit the increased business resulting from the reduction of rates, was greater during the last five years than the percentage of increase in the number of messages. He called attention to the fact that the Government telegraphs in Europe are exempt from taxation, either on the material used in the construction of the lines, or upon the receipts from business; whereas in this country the duties upon wire and telegraph apparatus are equal to 60 per cent. in currency, and the taxation, federal, state, and municipal, consumes the profit upon one-seventh of the gross receipts.

Voted, That the lay delegation be invited to take part in the discussion.

Bros. Beale, Hanscom and Townsend were admitted to full connexion, the charge being by Bishop Simpson, and was very impressive.

Voted, That Dexter be designated and selected as the place to hold the next annual Conference.

Rev. Bro. Boyd, delegate from the Penobscot Conference, was introduced and laid his report on the Secretary's table.

The following were admitted on trial:—John [illegible], J. W. H. Cromwell of Bangor, G. A. Crawford of Rockland District.

The following were elected Deacons:—Shepard [illegible] of Aroostook; Moses G. Prescott of the Searsport and Monroe Circuit; S. [illegible] of Bolton, and John B. [illegible] of Waldoboro.

Revs. D. B. Randall, G. M. [illegible], and Hill, visiting members, were introduced.

The Annual Missionary Sermon was preached this afternoon, by Rev. Wm. H. Brown.

The day has been fine and the attendance large.

The Methodists in Rockland have just finished one of the largest and finest churches in this County, and much of the result is due to Rev. George Pratt, who has been stationed here three years and who has labored early and late for the object.

Bishop Simpson, delivered a lecture this evening upon the Future of Our Country, which drew out a large house and was a very interesting and eloquent discourse. The admission was one dollar, and the proceeds will go toward paying the debt upon the church here.

ADDITIONAL BY TELEGRAPH.

ROCKLAND, May 14.

The state [illegible] delegation this forenoon stood 15 in favor and 14 against the measure.

The Committee on Temperance reported this forenoon, and strong resolutions were adopted favoring the faithful preaching and practice of total abstinence from all intoxicating drinks; pledging encouragement to all proper organizations engaged in laboring for the advancement of Temperance in our land, and declaring that the members of the Conference will vote for no man who has not, by his own nomination, identified himself with the cause of temperance, and who is not unmistakably in favor of prohibition. Action upon the report was not fully completed. The Missionary anniversary takes place this afternoon, and the Temperance Anniversary this evening.

CONSOLIDATION.

A telegram from Portland states that the consolidation of the Maine Central and the Portland and Kennebec Railroad Corporations, which failed to be accomplished at the last Legislature has been effected by private arrangement between the Directors of both roads.

The act was accomplished at a meeting there of the Directors on Friday, and the contract was then signed and is in possession of Hon. Josiah H. Drummond, Clerk of the Maine Central Railroad. The matter is subject to the ratification of the stockholders, however, of both roads. The terms of the contract have not been made public, and all stories as to their purport are mere rumor.

Meetings of the stockholders of each road will soon be held to act on the matter.

At noon, Friday, several citizens met the Mayor at his office and a discussion was had upon the matter, with a view of taking action to prevent its execution. Mr. John A. Poor stated that he was informed by persons who had seen the contract, that the terms were that the Maine Central should convey to the Kennebec road enough of its stock to make the latter corporation the owners of that road; that the railroad as consolidated shall be called the Maine Central, and that this new corporation had agreed to pay the interest on the bonded debt of the old Maine Central.

Mr. John Porteus, Freight Agent of the Grand Trunk Railroad, thought consolidation would greatly injure the Grand Trunk road. The freight coming on the Maine Central, and which is now switched off at Danville Junction on the Grand Trunk, would, if the proposed track was built from Danville Junction to connect with the Portland & Kennebec at Yarmouth Junction, be diverted from this road, to go west from Boston. With the narrow gauge on the Maine Central, tickets to the West could be sold cheaper to go by way of Boston than on the Grand Trunk.

Several other gentlemen spoke against the movement, but their remarks were of the same tenor as those of Mr. Poor and Mr. Porteus.

The opponents of the measure are excited and moving in the matter. A committee consisting of John A. Poor, John Muzzey and H. J. Libby, has been raised to investigate, and if necessary, to ask the Mayor to call a meeting of the Council to take measures to prevent its execution.

The mail steamer from Rio Janeiro, brings news of a formidable rebellion in the province of Entre Rios. The Argentine Government was bringing forward troops to the scene of disturbance. There had been some fighting but without decisive result. General Urquiza, a native of Entre Rios, and ex-Dictator of the Argentine Confederation, was shot and mortally wounded by an assassin. The Brazilian volunteers who took part in the war in Paraguay, are returning to Rio Janeiro, where they are received with great rejoicing. The Diplomatic Conference at Asuncion, for the settlement of affairs in Paraguay, had terminated, and the Brazilian and Argentine Ministers are on their way to Buenos Ayres.

The Living Machine.
Injure the main-spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole machine. The comparison may be carried farther: for as the weakness or other imperfection of the main spring is indicated on the face of the timepiece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. [illegible] and there is a [illegible] in the whole countenance which tells as plainly as written words could do, that the great mainspring of the body [illegible] whose office it is to administer to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. It is a specific for indigestion alone. When the resources of the pharmacopœia have been exhausted without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland as well as upon the stomach and bowels, the Bitters act, with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

WASHINGTON, May 15.

Arguments in favor of the Oceanic Pacific cable were delivered last week by Cyrus W. Field, before the Committee of Public Lands and Foreign Relations of both the Senate and House of Representatives, and the Senate Committee on Commerce. The distance in nautical miles by the proposed line are as follows: From San Francisco to the Sandwich Islands, 2080; thence to Midway Island, 1140; thence to Yokohoma, 2200; thence to Shanghae, 1035; to this is to be added one-sixth of the whole to make the statute 1080 miles, and also 20 per cent. allowance for slack in paying out the cable, 1520 miles, making the total length of the cable required to connect San Francisco with the Sandwich Islands, Japan and China, 9121 miles. It is said that the Committee on Foreign Relations were unanimous in favor of giving $500,000 per year for 20 years, instead of the public lands.

LOCAL AND OTHER ITEMS.

—"Front-step courtships" are in order now.

—Green-house keepers are happy, for customers are plenty.

—A pleasant visitor—the sun-light after a week of clouds.

—The Oranges of Maine—potatoes, so says Representative Farnsworth of Illinois.

—"Extra hazardous freight" (in this vicinity)—whiskey.

—It is about time for strawberries to appear in this region.

—Bonnets of white chip cost more than any other style.

—Morning and evening pedestrianism is on the increase.

—The municipal officers of nearly all the cities in the State have been vigorously enforcing the liquor law the past few weeks.

—A number of men got into a bad scrape Saturday by endeavoring to clean the [illegible] crossings.

—Youngsters still cling to the velocipede in this city, and every level concrete side-walk is visited by them on pleasant days.

—An open air meeting was held under the direction of the Y. M. C. A. on the approach to the Post Office at 5 o'clock yesterday afternoon.

—The theory of a decreasing population is disproved in this city by the great number of babies taken out for an airing on Saturday afternoon.

—Four steamers were at our wharves yesterday—the Katahdin, Cambridge, Allston and City of Richmond.

—The contest for the Junior Base Ball championship promises to be lively this season.

PERSONAL. General S. F. Hersey arrived on Saturday evening from a three months' trip to the West.

—The mellifluous hand-organ has not yet made its appearance in our streets this season, for which we have reason to be thankful.

—Pedlars may be a convenience in the country, but in the city they ought to be discouraged. Buy of your own storekeepers and then you know with whom you deal and what you are getting.

—Yesterday was a drying day. The mud disappeared rapidly, but the Eastern driver complains that there is a general unevenness in the surface of the roads, and we guess he is correct.

SEIZURE WITHOUT A SEARCH. Yesterday afternoon the Eastern stage arrived, bringing a huge mud turtle weighing a hundred pounds, which they seized on the road and confiscated. No search was required as the animal was enjoying himself in a huge mud puddle in the middle of the road. Where is the man who drew the elephant?

—Mrs. Osborn, a widow lady residing on Pearl Street in this city, who has for two weeks past been absent on a visit, returned Saturday night to find that some rogue had entered her house, ransacked all the trunks, bureaus, beds, &c., in search of money, leaving everything in a decidedly "mixed" condition. The thieves only succeeded in finding $2 which they carried off.

SABBATH SCHOOL CONVENTION. At a meeting of the State Evangelical Sabbath School Committee, held at the office of the Chairman, Hon. Geo. H. Pillsbury, in Lewiston, May 11th, arrangements were made for a State Convention to be held in Bath, Tuesday, Wednesday, and Thursday, September 13th, 14th, and 15th, to be under charge of Mr. B. F. Jacobs of Chicago, and Mr. Taylor of New York, some of the best Sabbath School workers in the country.

—A few weeks ago, says the Lewiston Journal, four barrels of liquor were taken from the Lewiston City Agency, and carried to Deputy Sheriff Strout's and put into his shed. Judge Smith subsequently ordered the liquors returned to the city. Tuesday night some individual broke into the shed, and nearly all the contents of the four barrels disappeared.

A NARROW ESCAPE. Mr. Samuel A. Gilman has just returned from his usual winter residence in the South. On his return he tarried a few days at Richmond, and was in the Court Room when the terrible disaster occurred, but fortunately was a few feet from the piece of floor that fell and was not precipitated into the yawning chasm of death. He received an ugly wound on his head from the falling ceiling, but not sufficiently serious to cause him permanent injury.

—The Commissioner of the Internal Revenue decides that persons who sell a mixture of soda water, etc., with wine and other spirits, are to be regarded as liquor dealers. "The claim," he says, "that the spirits are used simply for flavoring, might perhaps be supported by facts in a few cases, but generally, if not universally, the wine, etc., is quite a prominent part of the beverage."

MORRIS BROTHERS' MINSTRELS. Among the vast number of minstrel troupes which are floating about the country, there are really very few, which for any merit in their performances deserve the patronage of the public. Their character is accurately expressed by the word "cheap," and their persistent efforts to thrust themselves before the public, results in bringing the whole business into

On Saturday evening the City Marshal and policemen took a trip to Hampden in a carriage, and just before reaching that place, met a team, hauling two large sugar hogsheads towards Bangor. It looked a little suspicious to see a team hauling such freight at such an hour, so the Marshal turned about and followed it until it was driven into the yard of the dwelling of Mr. Cassidy, of the firm of Garland & Cassidy of this city. The driver claimed to be ignorant of the contents of the hogsheads, but an examination disclosed the fact that snugly stowed away in them were two barrels, one containing 40 gallons of whiskey and the other the same quantity of gin. The teamster very kindly hauled the liquors to the lock-up, where they are safely stowed for the present. The Marshal thinks it safer to confine liquor there in the original packages than after it is imbibed.

—The Chronicle says the season in that section is at least two months in advance of that of last year.

—Mr. William W. Dodge of Salem, has a native cow which dropped a calf, May 4th, that weighed when 24 hours old, one hundred and eighteen pounds.

—Rev. D. H. R. Gibbs, a young Universalist minister in Yarmouth, writes to the Gospel Banner an account of an attempt made upon his life by a man insane from the effects of liquor.

—Skowhegan has had a "May training," says the Reporter, and the Light Infantry turned out 75 strong. Their new uniforms will be ready soon and the equipments are expected daily. The cap adopted is a McClellan pattern, of blue cloth trimmed with gilt lace.

—The Sentinel learns that bills were found against most of the rumsellers in Eastport by the Grand Jury recently in session at Calais, but when the Sheriff came for them, they had left for parts unknown.

—Capt. J. W. Look master of the bark Eliza White of Portland, died in hospital at Gibraltar April 26th.

—Mr. William Johnson of Casco, had a valuable yoke of oxen stolen a few nights ago. They have not yet been recovered.

—The Skowhegan Reporter says the temperance organizations of Starks—the Good Templars and Sons—have got into a quarrel which threatens to destroy the usefulness of both, and injure the cause.

—David P. Wright of Portsmouth, challenges anybody to chop wood with him a day for $25 a side. The Chronicle vouches for him and his stake-holder as reliable men. This is a more profitable contest than most we read of, for the parties will have something to show for their labor after it is done.

A RAIL ROAD CASE. In the S. J. Court for Cumberland County, before Judge Walton, the case of Portland & Oxford Central R. R. petitioners for mandamus vs. the Town of Hartford, was tried on Friday last. We copy the report from the Portland Advertiser:

This was a petition for a writ of mandamus to compel defendant town to issue to petitioners $5000 in bonds. It is alleged that the town voted to this corporation certain bonds provided the road was completed in the specified time.

Defence—that the road was not completed as agreed by the corporation. The plaintiff deny this position of defendants, but even if it be true they contend that the town by vote, removed the condition of completion within the time named in the first contract.

The presiding Judge, to give progress to the cause, found that the road was not completed as contemplated by the vote of the town, but ruled *pro forma* that the vote of the town of the 18th of January, 1870, was a waiver of the non-completion. The case goes forward to the Law Court.

—The match game of billiards for the State championship played in Congress Hall, Portland, on Friday evening, was won by Sidell of that city, he making 1200 points to 1197 for Smith of Augusta.

—The newly chosen pastor of the High Street Universalist Church, Auburn, Mr. O. Van Cise of Canton Theological School, will enter on his duties in July.

—The town of Pittsfield recently voted to loan its credit to build another factory at that place, when the proper parties can be found to engage in the enterprise. That wide-awake town must find the investment profitable else they would not engage in it, says the Somerset Reporter.

—The Reporter suggests that Skowhegan have a Fourth of July.

—Mr. Josiah Gregory died in Appleton recently, aged 98 years and 364 days, lacking only a year and day of being a centenarian, and Mr. John Fuller died in the same town, April 30th, aged 94.

—The Gazette says that a man named Taylor was arrested last week in Dexter, in consequence of being too much married. He came there a short time since from a neighboring town, and at the time he was seized, held quite an important office, to which he had a short time before been elected.

—Hon. J. L. Stevens leaves Augusta to-day, to enter upon his duties as minister to Urugauy and Paraguay. He takes his family with him. On Friday evening, as we learn from the Kennebec Journal, he was presented with a valuable gold watch and chain by his friends in Augusta.

—The agent for the North Vassalboro' woolen factory, informs the Kennebec Journal that the number of girls employed in the mill is 100; whole number of workmen, 300; to whom is paid, monthly, $9000.

—We learn from the Waterville Mail that the house of J. B. Tarbell in Benton, was damaged by fire on Friday last.

—The Waterville Mail says J. H. Gilbreth of Kendall's Mills has sold the promising young stallion, sired by his "Knox," called "Lively Times," to G. J. Shaw, of Burnham, of the firm of Charles Shaw & Son.

CURE OF BLADDER AND KIDNEY AFFECTION OF LONG STANDING—STONE PASSED AND TO BE SEEN.

WESTPORT, Conn., Sept. 5, 1869.

H. T. HELMBOLD, Esq.

DEAR SIR.—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the Gravel bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed my bladder about the size of a LARGE PEA, and I now feel perfectly well and entirely free from the pain that I suffered with so hard. I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers. Yours truly,

THOMAS J. BENNETT.

CURE OF KIDNEY AND BLADDER AFFECTION OF A PATIENT SEVENTY-EIGHT YEARS OF AGE.

Thanks to Mr. Helmbold.

GIRARD, PA., March 17, 18[illegible]

EDITOR CRAWFORDITE:—I desire in an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using with little faith, and no apparent benefit resulted for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief which encouraged me to persevere in its use, and now at the expiration of four months, although I am an infirm old man, nearly 78 years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

A CASE OF INFLAMMATION OF KIDNEY AND GRAVEL.

From Morgan, Frazie & Co.

GLASGOW, Mo., February 5, 18[illegible]

DEAR SIR: About two years ago I was troubled with both Inflammation of the Kidneys and Gravel, when I resorted to several remedies, without deriving any benefit whatever; and, seeing your Extract Buchu advertised, I procured a few bottles and used them. There it was a complete cure in a short time. I regard your Extract Buchu to be decidedly the best remedy extant for any and all diseases of the Kidneys, and I am quite confident that it will do all you claim for it. You may publish this if you desire to do so.

Yours respectfully,

EDWIN M. FRAZEL.

VALUABLE

Timber Lands

And Mill Property

FOR SALE.

THE subscriber, desirous of disposing of all his interest in the following lands and mills, will sell on favorable terms the following.

One-Half Township No. 5, Range 4, Oxford County.

The whole township contains twenty-six thousand [illegible] timbered with spruce, estimated at sixty to eighty millions, all of which stands within from one to ten miles distance of the Magalloway River or its branches, which runs through the town to Parmachenee Lake, which is embraced within its limits.

Also 16,000 Acres of Land in the Town of Byron, Oxford Co.,

well covered with large Spruce timber. Swift river and its branches run through these lands and empty into the Androscoggin below Rumford Falls.

Also 1100 Acres Timber and Wood Land in Town of Gorham, N. H.

two miles above the Alpine House, on the line of the Grand Trunk Railroad, and the banks of the Androscoggin river. There is a large quantity of wood on these lots which, from its proximity to the Railroad, is steadily increasing in value.

Also 3500 Acres Land in the Towns of Albany and Stoneham,

near the village of North Waterford, Oxford County. This land is covered with thrifty sapling Pine timber, standing near Crooked river, which runs through the tract. Logs put into Crooked river can be run to Saccarappa, or by hauling four to five miles they can be put into the Saco. There is a good mill privilege, with a single saw mill on the tract, distance to the canal at Harrison ten miles, to the railroad at South Paris twelve miles. The land is valuable also for settling purposes after being cleared of timber.

Also 435 Shares of Stock in the Lewiston Steam Mill Company,

the whole capital stock being represented by 522 shares. The property of the company consists of a Steam Saw Mill, capable of manufacturing five million feet of long lumber, with a proportionate amount of clapboards, shingles and laths. About fifteen acres land in the city of Lewiston, well located for building purposes, and thirty thousand acres of timber land, well located on the Androscoggin river and its branches, from which but a small quantity of the timber has been cut.

NOYES'

PATENT HAND WEEDER.

This new and valuable labor saving implement is now offered to the public with the most confident assurance that, as an effective [illegible] it leaves nothing for the agriculturist or florist to desire.

That we do not over state its [illegible] will appear from the following quotation from a recent letter of Peter Henderson, the well known seedsman and florist, of Bergen, N. J. "I think it is decidedly the best thing I have ever used in the way of a weeder. My old foreman, who has, for the past twelve years been at the head of my vegetable department, though strongly prejudiced against all 'patents,' says, it will save at least 50 per cent. of our labor in weeding." I think it will do even better than that, particularly in root crops, that require thinning out, such as beets, turnips, onions, parsnips or carrots.

Ladies who cultivate flower gardens will find the "Weeder" to be "the thing" to relieve the labor and thus enhance the pleasure of their employment among the plants and flowers. For sale at all Seed and Hardware Stores. ALBERT NOYES.

LATEST NEWS IN BRIEF.

Twenty members of the Philadelphia city government are visiting Boston for the purpose of inspecting public bathing houses.

[illegible] Frothingham, aged 70 years, hung himself at his residence in Boston, on Sunday.

Stephen Merritt, Jr., presided, and [illegible] Diehl and George Wm. Dutcher addressed a large Temperance meeting, Sunday night, at Cooper Institute, N. Y.

Thomas Hickey was shot and killed in Rochester, N. Y., by a person unknown in front of a house of ill fame, on Saturday night. The murderer has not yet been arrested.

The corner stone of a new Jewish Temple was laid in Columbus, O., on Sunday, with Masonic ceremonies. Rev. Isaac M. Wise of Cincinnati pronounced an oration on the dignity of [illegible]

The [illegible] of Budd Doble, a well-known horse trainer in Philadelphia, were burned Sunday night. His large and valuable stock of horses was rescued.

In a fight at Saratoga, New York, Saturday night, Wm. Franklin of Albany brutally stabbed a man named Jackson of Troy, and Franklin was arrested.

A. T. Stewart will erect no buildings on Hempstead Plains until rail road communication is secured. He has already contracted for 20 miles of Avenues, 80 feet wide, with 30 feet of side walks, and 60 feet of road bed.

Rev. L. H. Crulick of Honolulu, Sandwich Islands, delivered an address Sunday evening [illegible] Broadway Tabernacle church, New York, on missions and their results in the Pacific ocean.

An unexplained explosion of gun-powder took place Sunday afternoon, in a wooden building connected with the Watertown Mass. arsenal, used for filling cartridges, destroying the building and alarming the neighborhood. Nobody was hurt.

The Sash & Blind Factory of McBean was burned in Toronto on Saturday night, together with a large quantity of lumber. Loss, $16,000; insurance, $4,000.

Two more companies of troops left Toronto, Monday morning, for Red River. The gunboat Rescue is to be sent to St. Mary's immediately, as a precaution against a possible Fenian attack.

The London Morning Post says the naturalization treaty has been signed by the Earl of Clarendon and Mr. Motley the American Minister.

At the anniversary of the Five Points Mission Sunday Schools connected with Dr. John Hall's Church, held in New York on Sunday, Ralph Wells addressed the children, and Geo. H. Stewart, of Philadelphia, the teachers.—Dr. John Hall and Dr. Edmunds of London, also spoke.

Further particulars of the outrage at London, last Tuesday, have been received. The names of the five men were Wm. Ryan, Stephenson Co., Ill.; Patrick Starr, of Essex Co., N. Y.; Patsey Riley, of Taunton, Mass.; Richard Pelbin, of St. Louis; Alexander Matthews, of Canada. The man now in jail is named Patrick Kelley, and the one shot by his companion was named Robert Wright.

A clerk in the office of Dr. Johannes Roesing, consul general of the North German Union in New York, has purloined over five thousand dollars in gold. Wine and women are the causes. His employer declines to bring the confessed culprit to punishment on account of his relatives who are among the best families of Prussia.

Dr. Cheever in a sermon at Apollo Hall New York Sunday denounced recorder Hackett, of instructing the jury in the McFarland trial to acquit that prisoner if the homicide was committed in a moment of frenzy. He called the Ecumenical Council the "Ecumenical Council of Humbuggers," and strongly opposed the expulsion of the Bible from the public schools.

Gov. Hoffman has vetoed the New York arcade railway bill, and names thirteen objections to the bill. While conceding the necessity of some improved rail road communication for the city, he insists that the bill passed by the Legislature is insufficient and unjust to property holders, the plan being new untried, and condemned as a visionary project by some of the most skillful Engineers, as endangering the safety of every building on Broadway.

The Committee of Ways and Means have perfected, and were expected to report on Monday, a bill reducing very considerably the internal revenue taxes. The bill makes a reduction on the gross receipts, legacies, successions, sales, and on almost everything except spirits, cigars and beer, the aggregate reduction being about $80,000,000. Mr. Boutwell was before the Committee on Monday, arguing against the four per cent in the Funding bill. The Committee spent much time Sunday, in considering financial matters.

Considerable excitement was created in London, Sunday, by the arrest of fifty persons, just arrived from Birmingham by the railroad. The prisoners all had revolvers and were plentifully supplied with money, and were supposed to be Fenians. The authorities are taking further measures to prevent any disorder.

The Journal Official of Paris, of Monday morning, contains a decree announcing the nomination of the Duke de Grammont for Minister of foreign affairs, Jacques Philippe [illegible] at present deputy in the Corps Legislatif, for Minister of public instruction, and Ignace Plichon, also a deputy in the Corps Legislatif, for Minister of public works, vice the Marquis of Talhouet.

In the Spanish Constituent Cortes Saturday, a Republican deputy made a speech wherein he spoke of the insurrection as still existing in Cuba, notwithstanding the repeated statements [illegible] similar leave of absence was given in the other departments.

The steamer War Eagle took fire from an explosion of Kerosene at Lacrosse Wis., on Friday, and was totally destroyed, together with the Milwaukee and St. Paul R. R. depot and Elevator. Two of the steamer's passengers were drowned by jumping into the river. The loss on the boat and buildings was total and very heavy, the amount of damage being not less than $300,000 and may largely exceed that amount. Four persons were drowned, and some persons burned to death. A train of six freight, two passenger and one express cars, the latter containing the mail matter were destroyed. Two hundred tons of freight were also consumed.

Rev. Charles B. Smythe of [illegible] notoriety, preached his last sermon on Sunday at the Eleventh St. Church New York. There was a large congregation present. Mr. Smythe only alluded to the matter to say he felt satisfied with his own course, and hoped that those who caused his retirement from the charge would have no reason to deplore their own conduct, after a dispassionate and prayerful review of their course. Mr. Smythe will take charge of an uptown church.

The prospectus of a new ocean cable between Wales and the coast of Rhode Island to be laid next year, will soon be published. Ex-Senator Arnold, of Rhode Island, Wm. T. Blodgett, Eugene Kelly, H. G. Marquand and G. Ticknor Curtis will be the New York directors of the undertaking. The cable is contracted for and is expected to be laid before September 1st. 1870.

The list of Fathers in the Council opposed to the definition of the dogma of Infallibility, now numbers quite one hundred.

Baron De Brunnow, Russian ambassador to England has been appointed to France vice Count de Stackleberg, deceased. Grand Marshal Schouvaloff will succeed Baron Brunnow at London.

A large number of ladies residing in New York and vicinity are taking steps to cause McFarland to be sent to a lunatic asylum.

Great preparations are making in Dayton Ohio, for the formal opening of the new hospital and National soldiers' home next Thursday. The Governors of Ohio, and the adjoining states, and Gen. Sherman and other prominent officers are expected to be present.

THE SECOND YACHT RACE. The second of the three races between the yachts Sappho and Cambria was won on Saturday by the Sappho, owing to the virtual backing out of the Cambria. The Cambria with her bowsprit lengthened, two and a half feet to accommodate a larger jib, proceeded outside of Noblight shortly after four o'clock Saturday morning, the Sappho having already arrived. The wind was blowing off shore, West-southwest, with considerable sea, though less than anticipated. The Cambria signalled to the umpires her preference for a triangular course, but they refused to grant it. The Cambria then accepted the proposal to sail 60 miles to windward; the course to be around Cherbourg breakwater, by the Western entrance. Mr. Ashbury won the toss and took the weather station, and, everything was ready for the start. The warning gun was fired at 7:20 a. m. Presently the Cambria signalled, "This is not a dead beat to windward" and the answer was returned: "This is the best the umpire can do, being only half a point off the wind." The Cambria then flung out the signal "Dead beat or no race." She was ordered to take her station, but refused. At 7.45 a. m. the steamer bearing west, northwest eight miles off, while the Cambria was lying dead, the American yacht swept by under full headway; the starting gun was fired, but Mr. Ashbury's yacht remained motionless. The Sappho stood to the windward with a steamer following the course as before. Loud cheers were given on board the American yacht, as she bore away to claim the prize accompanied by the Dauntless. The Cambria at last commenced to move, and followed a short distance, then tacking she returned to Cowes. The Dauntless soon after arrived there. There was a splendid breeze, and the Sappho behaved superbly, slipping but little water. A protest against giving the prize to the Sappho is expected.

The result of the race forms the theme of newspaper comment, and general conversation in London. On the return of the tug Goth to Cowes, parties then on board industriously circulated the falsehood that the Sappho had unfairly got a mile and a half ahead, at, or before the signal to start. This statement has been telegraphed to many of the sporting newspapers of England. The universal conviction now is, however, that the Sappho fulfilled all the conditions of the race, accurately and honorably, and those concerned readily admit it. Mr. Ashbury of the Cambria, is blamed by his friends for not insisting on time allowances.

Speaking of the efforts which are being made in England to establish a new line of steamships between Milford Haven and Portland, the Boston Journal says:

Milford has an admirable harbor, and advantages over Liverpool as to coal, and great facilities for the transmission of mails and passengers, having easy communication with London, Dublin, Liverpool and Bristol. The design of the projectors of this enterprise is to throw business upon the Grand Trunk, which is fast improving. In '67, '68 and '69, 400 miles of this railway have been relaid with heavy rails, and it is intended this year to lay down 170 miles more, 50 miles of which near Kingston will be laid down with steel rails. Sixty miles were ballasted last year, and for the two coming years it is intended to ballast a hundred miles annually, and to lay down fifty miles of steel rail a year, and a new bridge at Buffalo across the Niagara river, will soon be commenced. The Grand Trunk now earns about $800,000 a month.

Lieut. Wm. H. Emory has been ordered to the Practice squadron. The following Assistant Paymasters have been ordered to duty: Joseph T. Addicks, Cary N. Saunders and Lucius B. Hurd, to Philadelphia; Charles H. Bartlett to the Boston Navy Yard, and James A. King to the Naval Academy.

District Committee.

A few days since, in presenting a bill to the Senate to secure the equality of rights, regardless of race or color, upon all public conveyances and in all public places, Mr. Sumner remarked that he believed when this bill became a law, nothing farther would be required to provide for the complete legal recognition of the natural rights of every human being. This quiet remark, regarded from a retrospective stand point, is suggestive of the great change which has been wrought, with almost startling rapidity. From the days when men, women and children, were huddled in the slave pens of the South, or knocked down to the highest bidder on the steps of some Louisiana or Alabama Court House; when the highest officer of our judiciary declared that a "negro had no rights which a white man was bound to respect"—to the time when a negro occupies a seat upon the floor of the Senate; when equal suffrage is proclaimed alike to white and black, and only some minor details remain to accomplish the full intent of the grand declaration that "all men were created free and equal," is a change more wonderful in its suddenness, and the magnitude of its results, than has ever before occurred, in any nation. Truly the world moves.

The Maine Temperance Advocate, of this week, publishes a call for a State Temperance Mass Convention to be holden in Auburn Hall, Auburn June 17th, at 10 o'clock, A. M., for the purpose of nominating a candidate for Governor, and to attend to any other business that may properly come before said meeting.

It is now reported that in spite of the announcement of the settlement of the Red River difficulties by the unique scheme of re-arranging boundaries of that territory and constituting it a province with a new name, the British troops are still to proceed thither. How they are to get there and what they are to do, yet remains to be seen. There comes from St. Paul a rumor that the Fenians are to join. Riel on Red River and oppose the march of the British troops. The only thing about the story which gives it an air of authority is the fact that the fullest details of the plan of campaign are published beforehand, after the usual manner of the Fenians in their past enterprises.

The officers of the Pacific Railroad at St. Louis, confirm the report of the Indian raid on their road. An attack was made on the workingmen between Kit Carson's and Willow Springs, a distance of 40 miles. Ten men belonging to the grading parties were killed. This was the first appearance of the Indians this season in any force and the workmen were not on their guard. Arms have been distributed to them and troops have been sent to various points for their protection, and no delay will be caused in constructing the Road between Kit Carson and Denver.

A correspondent of the N. Y. Evening Post, alluding to the confinement of persons acquitted of crime on the ground of insanity, says there is such a law now existing, which was passed in 1842, and is to be found in the fourth volume of New York Statutes at Large, page [illegible], section 31, in these words:

"When a person shall have escaped indictment, or shall have been acquitted of a criminal charge upon trial on the ground of insanity, the court being certified by the jury or otherwise of the fact, shall carefully inquire whether his insanity in any degree continues, and if it does, shall order him in safe custody and to be sent to the asylum."

The Grand Army Council of administration consisting of Cols. E. B. Lansing, J. L. Farley, G. F. Hopper, H. Marshall and Major George D. Weeks on Saturday visited the Soldiers' retreat on Ward's Island, New York, accompanied by many prominent citizens. The object of the visit was to learn the actual condition of the inmates of the retreat, their treatment, quality and quantity of food, &c, on all of which points the result of the investigations was very satisfactory. The institution being limited, however, to the veterans from the city and county of New York, the council of the administration have decided to recommend the immediate erection of additional buildings for the soldiers, from the State at large. The party, before retiring, visited the public institution on Blackwells & Randall's Island.

Pere Hyacinthe has been remarkably quiet since his return to Europe. It is now stated, however, that he is paying a visit to Dr. Dollinger, the distinguished German opponent of the doctrine of Papal infallibility. Possibly this may foreshadow a new protestant movement within the pale of the Catholic Church, but more probably Pere Hyacinthe intends nothing more serious than the infliction upon Dr. Dollinger of the annoyances which the Pere himself was forced to undergo at the hands of the interviewing reporters of the New York press.

Senator Ramsey of Minnesota, ex-Governor Smith of Vt., R. D. Rice of Maine, Congressman [illegible] of Connecticut, William Whiting and E. L. Davenport of Boston and Gov. [illegible] of Wisconsin, are among the prominent arrivals in New York.

and merging that association in the organization." The discussion in the proposed action was very long, and rather warm. Mr. Blackwell and Lucy Stone being the only advocate of dissolution, and protesting against the surrender of the association to Tilton as premature, unjust and unfair. Mr. Blackwell replied to a speech by Edwin A. Steadwell in favor of a transfer, by a motion to adjourn, declaring that the proposed action was simply outrageous; that he had not B [illegible] friends here to support him, and that he and his wife were simply overpowered by numbers. Mr. Pillsbury rejoined that this meeting was called by your own decree. You object to the smallness of the numbers present. Would to God there could always be a minority in a bad cause. It is legal for you, the minority as you are, to come here with murder in your heart, and endeavor to cut the throat of this association, but it is not legal for the majority who are in favor of decency, progress, peace, harmony and growth, to pass resolutions for their attainment. Finally Mr. Pillsbury's resolution prevailed [illegible], only [illegible] Mr. Blackwell and Lucy Stone voting in the negative. Mr. Pillsbury was appointed a committee to take charge of the records of the association and the meeting adjourned, subject to the call of the executive committee.

THE EUREKA RAILROAD DISASTER. The evidence before the Coroner's jury on Saturday, plainly showed that the extra freight train, which collided with the passenger train at Eureka, Thursday, was not in position for instructions, and had used from 10 to 15 minutes more of the express time than specified orders had allotted to it. The conductor and engineer of the extra train swore that they ran precisely according to orders, and if there was a mistake it arose from a difference in watches. The weight of the evidence is against them, however, and the Coroner ordered the arrest of Wm. Odor, the conductor, and he was placed in the calaboose. The fact that Odor and his engineer, Tracy, left the spot instantly after the collision, because, as they assert, they feared personal violence, while the conductor and other employes of the passenger train remained and worked nobly for the release and relief of the sufferers, is generally regarded as showing a consciousness of their having done wrong, and strengthens the belief that they alone were to blame for the collision. The wounded generally are doing well, and are receiving care from some of the best surgeons and physicians in St. Louis. The Railroad Company are doing everything possible for their comfort, and will recompense them for their losses so far as money can do it, without suit or expense. The remains of the dead have been placed in the cemetery vault subject to the orders of their friends. The pecuniary loss of the accident to the rolling stock is about $5[illegible],000. The reported death of H. S. Fleming, chief engineer of the Talbot & Ne[illegible] Railway, is incorrect.

THE GREAT BOAT RACE. The articles for the race between the Tyne and "Paris" crews at Lachine have been returned by the Tyne men with their signatures, with some unimportant alterations, all of which, with the exception of one with reference to turning the stake-boats, have been assented to by our men. The Tyne men desire to be allowed to turn their stake-boat either to the right or left, as they may find most convenient, but this will not be agreed to, as it might result in a foul although each boat has a separate stake-boat of its own. The Tyne men propose the 17th of September for the race, or some date a few days earlier, which will probably be adopted. The Umpire for the Tyne crew is not to be chosen until after their arrival in America as they are not at present aware of any friend accompanying them. The stakes are to be deposited in the Bank of Montreal.

A telegram from Havana 15th, states that the cannon recently captured in the Middle Department of Cuba, have arrived in Havana, and on Friday were taken through the streets in triumph. A number of ladies in Trinidad were recently sentenced to imprisonment, but through the influence of the American Consul the Captain General has commuted their punishment to exile. The insurgent leader, Manual Caridad, with one cannon and 40 men, all armed, voluntarily surrendered at Canmones. Caridad and some of his men tendered their services to the Government, and were permitted to assist the troops in their search for other insurgents. In consequence of this surrender, 200 persons have presented themselves for pardon to the authorities in the Trinidad jurisdiction.

A war party of Agallalahs dressed in clothing furnished by the Government, lately called at the cabin of a settler living on Nebraska river, 120 miles north of Sioux City, Iowa, and while shaking hands with the man's wife, shot her and then killed her little son and took her daughter, aged 8 years, prisoner. The husband escaped. The excitement in that region is very great and it is feared it will be depopulated. Loud calls are made for Sheridan and Baker.

The Delaware Republican State Convention will be held on the 8th of June at Dover.

[illegible] Against, 18.

The roll was then called and the vote resulted as follows: For, or in favor of lay representation, 43; Against, 14. Total, 57.

The case of Rev. Mr. Crawford passed and he was re-instated.

The case of Rev. Mr. Plummer was referred to the presiding elder for investigation.

Rev. Mr. French from the Committee on Periodicals, reported. The action and position of the Zion's Herald was very pointedly and [illegible] naturally criticized.

Rev. Dr. H[illegible], editor of The Zion's Herald, supported the paper and its course and spoke at some length in connection.

The report was recommitted for amendment. It was subsequently reported and adopted.

A resolution was passed recommending the different societies to furnish the parsonages with furniture.

Rev. Mr. W[illegible] from the Committee on Temperance reported a series of resolutions which after amendment were adopted, and were as follows:

Resolved, That we will continue to labor faithfully in and out of the [illegible], all [illegible] may attend upon our ministrations, against the intoxicating cup: touch not, taste not, handle not, but [illegible] the deadly [illegible] which [illegible] filling so many homes with [illegible] sorrow, and so many graves with its [illegible].

Resolved, That we will in every honorable way encourage all such organizations as are laboring for the advancement of the cause of temperance in our land.

Resolved, That we will vote for no man for any office in our State who has not previous to his nomination identified himself with the cause of temperance and who is not unmistakably in favor of the enforcement of the prohibitory laws.

The above resolutions were adopted but the report was subsequently recommitted to the Committee to report next Monday.

The feeling seems to be that a resolution avoiding the appointment of a State Police should be added to the above, and such will probably be the result.

The appointments will be made next Monday or Tuesday morning.

Sermon in the afternoon. In the evening the annual Temperance Anniversary meeting was held, and stirring remarks and speeches made.

To-morrow the pulpit of all our evangelical churches in the city will be filled from the Conference, upon invitation from the various societies.

CONSOLIDATION.

PITTSFIELD, May 16.

To the Editor of the Whig & Courier:

In your paper of to-day, under the head of "Consolidation" there is a report of a meeting of the citizens of Portland which seems remarkable even for a city of its pretensions. The "natural seaport" seems to be in a high state of excitement over the prospect of getting the productions of this State destined for Boston and other towns west as a market through Portland. Mr. John A. Poor, who has been at the head of the "Paraguayan policy" of putting all the embarrassments possible in Portland to the transit of goods and property either way through that city, is the chief speaker, it seems. He and Mr. Libby, who we understand is a large steamboat owner, recommended the calling together of the *Common Council* (whew!) of the city, to concert measures of opposition to the act of Consolidation; and in order to stimulate such action, the Agent of the Grand Trunk R. R. thinks that to build a road from Danville to Portland on the *narrow gauge* will enable the people of this State to get tickets to the West cheaper via Boston than over the G. T. R. R. Well, suppose it does, so it will also lessen the risks of railroad travel, we think, very materially for those of us who want to get to Portland. For a certain seasons of the year, for several years past, that great channel of commerce, the G. T. R. R. has been in decidedly a bad condition, as those of us know who laid out all night a few months ago, at Yarmouth, because of its condition between there and Portland. Seriously, Mr. Editor, we know nothing about the arrangement said to be entered into by the parties; but anything that will rid us of the risks of the G. T. Road, and remove the delays and expenses and damage of trans-shipping all our productions in Portland destined for places West of that city, will be a God-send to all of us.

I am a manufacturer and producer of goods, and want to sell them in Boston, and they are inevitably delayed from one to two days in Portland in the transfer. If I order goods in Boston, there is the same delay. Articles in bulk are more or less injured in the handling incident to trans-shipment there, besides the expense; and so great are these troubles to the Maine Central road that their business must be seriously affected by it. There is no manner of doubt that the business of the people along the line of the Maine Central road and in Bangor have suffered many thousand of dollars in consequence of the delays and expenses incident to getting the productions and goods through that city. And it is just all of these shackles and embarrassments that Messrs. Poor & Co. want to retain; and we trust the arrangement, whatever it may be that will increase our facilities of getting through that city, will be consummated, notwithstanding the opposition of the Common Council or even Board of Trade of that city.

FORTY-FIRST CONGRESS--SECOND SESSION

WASHINGTON, May 16.

SENATE.

The bill granting public lands in Alabama to the Decatur & Alabama R. R. was passed.

The bill granting lands to aid in the construction of a railroad from the western boundary of Minnesota, at the junction of the Sioux Red River, with the Red River of the North, to the Winnipeg district of British America, was passed.

Mr. Casserly's amendment, putting the price of lands at an average value of $2 50 per acre, and prescribing a method of keeping the lands open for settlement, which was identical with the formula proposed by the House Committee on public lands for all bills of this character, being rejected, 20 to 27.

Mr. Stewart submitted an amendment providing that when any person ineligible under the third article of the 14th amendment, shall hold office, except members of Congress, or of the State Legislature, the United States District Attorney for the district in which said person holds office, shall proceed against such persons by quo warrants, and such writs of quo warrants shall take precedence over all others on the dockets of United States Courts to which they are made returnable.

Mr. Stewart also moved several additional sections imposing fine and imprisonment for the holding of office in violation of the 14th amendment, and for ever disqualifying the offender from holding office under the United States and giving to all persons within the jurisdiction of the United States Indians not taxed, excepted the same rights in every State or Territory to make and enforce contracts to sue, give evidence and to the full and equal benefit of all laws and proceedings for security of person and property as enjoy by white citizens, also to be subject to like pains and penalties, taxes, licenses and exactions of every kind and none other; and no tax or charge to be imposed by any State or upon any person emigrating thereto. The civil rights act of '66 is also re-enacted.

Mr. Vickers made an argument against the power of Congress to pass the bill, claiming that the ratification of the 15th amendment was irregular and invalid. New York had withdrawn had withdrawn her ratification; the action of Indiana was illegal, and three States, Virginia, Mississippi and Texas had been coerced into ratifying it, leaving the aggregate of the four States less than the required number for its ratification.

Mr. Thurman followed in opposition to the bill, which he said in his opinion had been purposely made so obnoxious as to defeat itself. He stated in detail his objections to the bill, which he said that if passed, would create of the people a race of informers and make the military instead of a civil power a sovereign in the country.

Mr. Ferry moved to amend Mr. Stewart's amendment by striking out the section to enforce the 14th amendment, imposing a penalty on any person ineligible thereby who knowingly hold office under the United States. He thought that the political disabilities of the Southern people would not remain for more than two years longer, and that it was impolitic to create new fines for misdemeanors of this character, as the remaining provisions provided a sufficient remedy for the existing evil.

Mr. Norton opposed Mr. Ferry's proposition, which he declared subversive of every principle of justice and a cruelty to the country.

Mr. Ferry replied that Senator Norton had entirely mistaken his position and the character of his amendment, as he had simply moved to strike out a superfluous section, and the purpose of such was substantially contained in the preceding.

The Senate went into executive session and then adjourned.

HOUSE.

Among the bills introduced were three to prevent cruelty to animals, &c., and relative to the qualifications of assistant marshals to take the census so as not to exclude women.

Mr Cox of N. Y., offered a resolution instructing the Reconstruction Com. to report forthwith a general amnesty bill, and moved the previous question.

The House refused to second the previous question, 51 to 83, also refused, 84, to 86, to lay the resolution on the table—referred it to the Reconstruction Com.

Mr. Schenck of Ohio, Chairman of the Com. on Ways and Means, reported a bill to reduce the internal revenue taxes and made explanations to the House.

He said there was now on the general calendar in Com of the Whole, a bill reported in March last, to codify and reduce into one all the bills. From present appearances and from the condition of the business it was not probable that the bill could be disposed of in its entireness this session. The Com on Ways and Means had therefore come to the conclusion to divide the matter of that large bill on internal taxation into three bills, and to ask successively the action of the House upon them. The Com. proposed in the first place to modify, and to a great extent repeal all the internal taxation laws of the country with the exception of the tax on fermented liquors, tobacco and segars; then the Com. would report a bill relating to those articles and then report a general bill relating to the organization of the internal revenue department the bill which he now offered was the first of those. It repealed all taxes on legacies and successions which last year produced $2,434,593; all taxes on the gross receipts of railroad and insurance companies and other corporations and all kinds of business, with the exceptions of lotteries, theatres and places of public amusements, &c. The whole of such taxes produced last year $8,44 ,210, and the reduction now proposed was estimated at $6,109,617; and all the tax on sales was taken off except that assessed on dealers in liquors, which would make a further reduction of $8,168,704; it repealed all special taxes on retail and wholesale dealers in liquors, distilleries, manufacturers of tobacco and cigars, dealers in tobacco and leaf tobacco, banks and bankers, foreign commercial brokers, foreign insurance agents, patent right dealers, pawn brokers, proprietors of public amusements, and of gift enterprises and jugglers, proprietors of bowling alleys and billiard rooms, lottery managers and dealers in lottery tickets. It reduced the special tax on keepers of hotels, inns and taverns to $10, if not exceeding the rental value of $500, and adding $3 for each $100, for rental beyond $500. The reduction thus made would amount to $8,744,762. It modified the income tax so as to increase the exemption to $1500, leaving the percentage the same as now, 5 per cent. This would effect a reduction of $5,571,10[illegible]. It changed the law in its effects on insurances so that persons having less than $1500 incomes shall not be required to make returns and there shall be no publication of incomes.

After enumerating several other articles he moved in conclusion that the bill be printed and recommitted to the Com. on Ways and Means with authority to report it at any time. He stated that the bill would be reported back within a week as he desired to get an early action on it, and the motion was agreed to.

Mr. Dawes of Mass., Chairman of the Com. on Appropriations, moved to go into Com. of the Whole on the Naval Appropriation bill, and moved that all prior orders be postponed until after the completion of all the appropriation bills now with the committee.

He prefaced his motion by remarking that it was merely waste of time, as confessed to-day by the chairman of the Com. of Ways and Means, to indulge in more sentimental talk about the tariff bill, which could not pass this session.

Mr. Dawes motion, virtually postponing the tariff bill indefinitely, was agreed to, 92 to 77.

The bill from the Judiciary Com. to enforce the provisions of the 15th amendment was passed under a suspension of the rules, 107 to 44, and the House then adjourned.

FROM WASHINGTON.

WASHINGTON, May 16.

The House Committee on Military Affairs this morning, agreed to report a bill for the equalization of bounties, which gives eight and a third dollars per month to each soldier for every month of service and deducting the amount of bounties previously received under former acts of Congress.

FORE MARKET ROOM.

To the Editor of the Whig and Courier.

I see by an item in your paper of the 13th that mention is made of a petition asking for more market room, or the enlargement of Pickering Square for that purpose.

This is indeed, for improvement in the right direction, and it is earnestly hoped that our city authorities will grant the petition without delay, by making room in the proper locality, extending Pickering Square to Union street if need be. Stake out on the Market Square the streets belonging to the travelling public, and the space left would not be large enough to accommodate six market teams, and though it [illegible] with the streets [illegible] been [illegible] with teams for many years, making it difficult and dangerous, and sometimes almost impossible to get through the crowd, but little effort had been made to remedy the evil though all knowing it ought to be done.

Standing on the sidewalk near the Farmers' Bank, and looking down toward Union street, one can see at once the proper location for a market, by continuing on a straight line towards Union street, the sidewalk [illegible] in the rear of the Mercantile Block—thus removing a pile of old buildings and rubbish, which on a sanitary measure, or in a [illegible] point of view, the writer thinks, a strong argument could be presented in favor of the removal, and also the increased value of the Broad street stores and lots by so doing, would be an assessment that would pay quite a part of the expense. Stores in Mercantile Block are to-day worth double what they would have been had not the [illegible] block been removed from the rear, in order to make a stand for truck teams, and that was a valuable structure, compared with those we speak of. Give us more market room in the right direction, and on level ground, is the wish of all who ever have occasion to pass through West Market Square, where the labor of placing so many teams on so small a space, is like that of putting a gallon of pop beer into a quart bottle.

A CITIZEN.

NEW PUBLICATIONS.

THE PEOPLE'S MAGAZINE for May, is embellished with a beautiful colored frontispiece, "Self-Satisfied," followed by the usual amount of good reading matter, among which a biography of "William Tyndale," an article on "Plain Living and High Thinking," and a thrilling description of the "Battle of Waterloo," will be found of special interest. Re-published by Pott & Amery, New York.

The April number of THE EDINBURGH REVIEW has a curious article on the now for the first time disputed question of the lunacy of Juana, of Spain, or the "Mad Queen Juana," as she has usually been called by historians, followed by an interesting description of the good effects of the "Non-restraint System in the Treatment of the Insane," and an able review of Tennyson's last poem "The Epic of Arthur," with a long article on the "Ballot not Secret Voting." Re-published by the Leonard Scott Publishing Company.

EVERY SATURDAY is accompanied by a comical picture of the famous "Dick Swiveller and the Marchioness," and is embellished with a portrait of John Bright, M. P., another of the Khedive of Egypt, with various other pictures, stories and sketches that contribute to make up an attractive and interesting sheet. Published by Fields, Osgood & Co., Boston.

A telegram from Havana of the 14th, states that nearly all the estates have finished grinding the cane, and notwithstanding foreign advices, there is a large business doing. Prices are unchanged. Stock in warehouses at Havana and Matanzas, 550,000 boxes and 20,000 hogsheads. Exported during the week from Havana and Matanzas, 30,000 boxes, of which 12,000 were for the United States, and 7,000 hogsheads, of which 000 were for the United States.

—The Rev. Mr. Cassidy, late of Lewiston, has been appointed to the pastoral charge of St. Mary's Catholic Church of Machias, says the Republican.

LOCAL AND OTHER ITEMS

—Business on the streets is stirring.

—The walls of the new jail are going up rapidly.

—Soda had a great run yesterday, but no chips were allowed in it.

—Prof. Fernald, of the State Agricultural College was in town yesterday.

—Several runaway horses yesterday, but so far as we learn, no serious damage was done.

—The [illegible] candy boy looked forlorn at his perishing stock in trade yesterday.

—The leaves expanded wonderfully Sunday and Monday, and one might almost see the grass grow.

—The arrival and departure of the steamers running to this port collect large crowds at the wharves.

—Our business streets received a thorough cleaning yesterday, and the mud and filth were carted off.

—Several interesting speakers are announced to be present at the meeting of the Bangor Temperance Society this evening.

—The ladies were out in great numbers yesterday, which the weather wise say is a sure sign of an approaching storm.

—Mansard roofs are very popular in this city and nearly every building of note, now in process of construction, is to be covered in this style.

—We call attention to the communication of "Citizen" headed "More Market Room," where a correspondent presents his arguments in favor of the same.

—We hear a general complaint that the streets were not lighted Sunday night. It is true that there was a moon, but the clouds veiled it from sight.

—Dust was blowing again on the upper streets yesterday morning, and in the afternoon people were "blowing" on account of the rain.

—The boys who have been in the habit of throwing stones from the bank above the city stable are notified that a man in blue buttons has his eye on them.

—There was a curious phenomenon in this city last evening. A cloud fell from the clouds in small quantities, which some of the older inhabitants pronounced rain.

—A gentleman residing on State-st, who has a low granite wall between his grounds and the sidewalk, yesterday morning found thirteen large piles of peanut shells on the latter at regular intervals, where that number of couples had been seated on the wall the previous evening, whispering soft words and eating peanuts.

—The Supreme Judicial Court room is in the hands of the carpenters undergoing much needed repairs. One step has been taken off the elevated platform on which the judges sit, and the general arrangements are to be slightly changed. When the wood-workers have finished the room and its fixtures will be treated to a coat of paint.

A NEW SPAN of horses for the city came here on the Katahdin on Saturday. They were purchased of Emerson & Porter, Boston, and are fine-looking animals, weighing respectively 1535 and 1542 lbs. The city of Bangor now owns 16 horses, of which 12 are used on the streets, and 4 on the steamer. The latter alternate in working on the streets, one half day each, leaving one pair always in the engine house during the day.

"A LETTER FROM HOME." Persons who have formerly resided in Bangor, but now in remote regions, say that the Bangor Weekly Courier is as good as a letter from home, giving a full and complete resume of State and local news. Besides these valuable features, the Courier has each week a letter from England, an interesting story, agricultural, domestic reading for the home circle, &c., &c., making it one of the most valuable of all the Weeklies. This week's issue, (with supplement) is now for sale at the Bookstores and at our office.

AN IMPORTANT SUIT, wherein about $15,000 was involved, was tried in the U. S. Circuit Court at Portland last week, wherein Francis Vose of New York was plaintiff, and Gideon Mayo of Orono was defendant. The claim was upon two judgments amounting to $33,000 against the Penobscot Railroad Company and Mayo an endorser of their note. The defendant alleged a full settlement at the time the European & North American Railway Company bought the franchise and property of the Penobscot Co., and the jury after a trial of four days, found a verdict in his favor.

—Gov. Chamberlain having received private advice concerning possible attempts of Adams and Haight, the leader, of the Rockland bank robbers, to escape, has despatched an order to the sheriff of the county of Waldo to put an armed guard upon them until further orders, says the Bath Times.

—The Times says the Kennebec mud-diggers, which have been wintering at Riggs' in back river, near Bath, are now getting ready for their up-river labor again.

—The Argus says the chief question on Commercial street and the wharves is as to whether Portland or a lot of rotten hides shall be moved. One of them has got to go or there will be no living thereabout.

—The Una boat club of Portland received their new four-oared race boat. She was originally intended for the Harvard-Oxford in England but was not completed in time, says the Argus.

—Bishop Neely administered the rite of confirmation to twelve persons at St. Stephen's church, Portland, on Sunday. The Argus says the church is in a very flourishing condition at this time—is entirely free from debt, and nearly every pew is taken.

—Burglars are ransacking houses in Portland.

—Lewiston liquor dealers are "up a stump."

—The store of Mr. Donald Smith in Hollis took fire Thursday night, from a defect in the chimney. Building and contents consumed. Insured for $2000, as we learn from the Argus.

—A Hollis correspondent of the Argus says that a little girl named Nellie Elder fell into an open well that was 20 feet deep and had five feet of water in it, on Friday. Mr. Frank J. Lewitt descended by the bucket chain and rescued her. She was but slightly injured.

—The Universalists of Norway have succeeded in raising $2000 or more for the purpose of relieving the society of its indebtedness, of which E. F. Beal Esq. paid $500.

—An affray occurred at South Paris on Wednesday last in which Charles Hall was stabbed by John Land.

—The trade of five wholesale dry goods firms in Portland was from May '68 to May '69, $3,309,200. From May '69 to '70 it was $3,544,172.

—Last week a man named Patrick Myers, was brought before Judge Downes of the Municipal Court at Calais, for examination, on the charge of attempt to commit a rape. The case began to look bad for the prisoner, and, while the attention of the Judge was drawn for a moment in another direction, he quickly left the court room and quickly crossed over to St. Stephen.

—The Machias Republican learns that the Normal School at Castine is in a most prosperous condition, and is calling for the State to appropriate $35,000 for the erection of a suitable school building, as the building which the town of Castine furnished for the use of the school in its infancy, has become entirely inadequate to accommodate it in its present proportions.

BANGOR POLICE COURT.

BEFORE JUDGE CLARK.

Monday, May 16th. Ira Goodhue was arraigned for keeping intoxicating liquors with intent to sell the same, contrary to law. He plead not guilty, waived an examination, and found bail in the sum of $200, for his appearance at next criminal term of the S. J. Court.

—In November last, a couple arrived at Skowhegan from Nova Scotia, and to them was born a child that the mother said she hated and the father wished to die; but the child was born to live. Until a week before last the mother attempted to give the child away, but that day went to Portland and returned without it, saying that she had given it away. Nothing was thought of the matter until an item appeared in the papers stating that a female babe, about three months old, was found in the P. S. & P. R. R. station at Portland, when the woman was called upon and gave a story that did not seem perfect, but after a while confessed. The authorities at Portland were telegraphed the facts and the officers at Skowhegan were requested to arrest the parties and hold them until Monday. They have accordingly been arrested, the man put in the lock-up, and the woman under guard. The parties give their names as Dagin.

—The Press says that the largest boiler ever built in Maine, weighing 36 tons, was hoisted, Thursday, into the steamer Montreal at Portland.

—Lewiston and Bath are enjoying their first shad.

—The Machias Republican says that since last September, six hotels have been erected at Bar Harbor, making thirteen in all, in that little village. These hotels will accommodate in the aggregate, about seven hundred persons. Private families take boarders, so that one thousand eight hundred people can find accommodations at Bar Harbor. Two hotels fifty by fifty feet on the ground, and two stories high have been built since October by gentlemen from Boston. Several nice buildings were put up last year by outside parties.

—The arch of the bridge at Bath, that was taken down by the October gale has been replaced. It is 50 feet long and is on a new plan of the work, as we learn from the St. Croix Courier.

—Rockland liquor agent has a salary of one hundred dollars.

John B. Howell, Brooks,
John R. Smith, Islesborough,
George D. Lineman, Brunswick,

—The Journal says a citizen, in passing the North Church, Belfast, at noon, one day last week, saw a woman knocking at one of the doors. Inquiring what she sought by the curious proceeding, she desired to know "if Mr. —— lived there?"

—A youth of 75 summers was so anxious to get into law that he traveled 10 miles from and to his home to Farmington, last week, as we learn from the Chronicle.

—A woman at Biddeford Police Court presented as justification for an excited and dangerous state that she had been reading the McFarland trial!

—Rev. J. R. Bowler, Baptist State Missionary, who has been laboring for a few weeks with the church of Guilford, baptised eight into the fellowship of that church on Sabbath, May 1st. Of the twenty-three added by baptism, eight are males, eight are heads of families, the remainder young.

—Augusta is having daily evening preaching services at the Congregational vestry, and daily morning prayer meetings. Rev. Mr. Fay of Bangor, is assisting the Pastor in these services. About twenty persons this far, more than half of whom are adults in active life, have expressed a hope that they have on the new life, says the Journal.

BUSINESS ITEMS.

LADIES.—We noticed a few days since, at Mrs. Folsom's room over Hatch & Stevens' store, a large variety of new and beautiful patterns of Ladies' and Misses' dresses and outside garments. They were from the celebrated House of S. T. Taylor, New York, one of the largest dealers in, and importers of, fashions, in this country. If you want to see stylish patterns call at Mrs. Folsom's room—36 MAIN STREET. May 18 d2t

[illegible] that in six years she will be an old lady of fifty. Her vanity and unsuccessful efforts to conceal the ravages of time, are the subject of many amusing epigrams in the *salons* hostile to the Court of the Tuileries.

HOW TO SELECT A HORSE. Probably in no article of trade are persons so often deceived as in the purchase of horses. So risky is this that many prudent buyers never purchase except on a trial of a week or more, and I would advise all who do not know how to select a good horse, to adopt this course.

In buying a horse particular attention should be given to the eye. It should be clear, stand out round and full. The eyebrows and lids should be free from bunches, and there should be no swelling under the lower lids. I would turn from a horse that has a dull, sunken, flat eye. In nine cases out of ten there is trouble connected with it. Either the disposition of the horse will be bad, or he will be lazy, or his eyes will fail. A good way to test the present condition of sight is to lead a horse out of a dark stable into a strong light. If he knits his brow, throws his head up as if to get more light, acts as if he wanted his glasses to see clearly—stand from under, you may be sure he has bad eyes.

The feet should also be carefully examined. A horse with bad feet is little worth. A good foot is smooth, tough and solid. The heels firm (not spongy) the frogs dry and the soles shallow. See the foot that the honest smith calls a good one. The shoulders should be of medium size for common use; as then you have good speed and durability.

The limbs should be clean, free from splints, and wind-galls, and spavins and tumors of all kinds, and should look as if made for the body. In movement, the fore legs and shoulders should seem to have but one action. If you want a good horse look well to this.

The body should be well formed, back straight, and the hips lower than the withers. See that the breathing is natural, and that there is no uncommon motion under the short ribs. A broken winded horse, unless rosined, nearly always shows this.

A horse with a large fleshy head and thick neck, also one with fleshy legs should be rejected. [Ohio Farmer.

SOLDIERS OF 1861.
$100 Bounty.

The Supreme Court of the United States has just decided that the soldiers [illegible] enlisted under the first call of the President, prior to July 22d, 1861, and who were honorably discharged upon a Surgeon's certificate of disability, are entitled to the bounty of $100.

This bounty has heretofore been refused to Soldiers who served less than two years, unless discharged on account of wounds. Under this decision, it will be paid to those discharged by reason of disease.

We are authorized to procure this bounty, and will collect it for those entitled, promptly and at the lowest rates.

Applications will be sent by mail upon request, to those who cannot call at our office. Those for whom we have not previously [illegible] please forward their discharges to us, and we will send the necessary papers by return mail.

As the claims will accumulate at the Department, soldiers will see the policy of sending their discharges early, in order that their applications may be filed immediately.
